CO-CURRICULAR ACTIVITIES

Scouts

Fun and adventure await at Zhenghua Fox Scouts! As a CCA that focuses on outdoor adventure and leadership, there are many opportunities for the Scouts to cook with an open fire and even go on overseas adventure trips. The Zhenghua Fox Scouts have won the Frank Cooper Sands Gold Award for 17 consecutive years and have been awarded the Chief Commissioner's Challenger Award for being the Best Patrol three times in a row. It is the first time that a Scout unit has attained such a feat in Singapore.

Dance

The Freshmakerz, Zhenghua's Dance Club, has been growing in numbers. It is a testament of the art form gaining interest amongst today's youth. The CCA adopts a unique approach of offering dual dance genres to aspiring dancers through Malay contemporary dance as well as hip-hop dance. As a result of the club's high levels of achievement and hard work over the years, the dancers were invited to perform for President Halimah Yacob and her guests at The Istana's Hari Raya Open House in 2019.

 and Future Ready Leader

PROGRAMMES

Learning for Life (LLP): Outdoor Education for Character and Leadership Development

Outdoor Education is in our DNA
Throughout their time in Zhenghua, all students will have the opportunity to challenge themselves through a myriad of outdoor elements around the school. Passing by these outdoor elements every day serves as a daily reminder of the school's emphasis on outdoor education and character-building. Other than scaling high elements, all students will also learn kayaking and acquire water confidence skills. Our secondary 3s also get to DIY, plan, and execute a three-day, two-night class expedition around Singapore.

Applied Learning Programme (ALP): The Future of Transportation

Fly, Robots, Fly!
How often do you shop online? What do you usually buy? When you make online purchases, do you often use a delivery service? Your answer is a resounding "yes", right?

With an increasing demand for delivery services due to the popularity of e-commerce, logistics companies need to find new and innovative ways to meet these demands. Our Applied Learning Programme provides students with the opportunities to explore the possibilities of using other modes of transportation to meet such rising delivery demands. This includes using Maqueen robots and flying drones to carry out delivery tasks through team activities. Students will also learn to use Scratch coding to command mobile robots (mBot) to perform tasks such as dancing and wrestling.

E3 Programme

Explore, Engage, Experience!
When we get our students out and about, we provide them with challenging, exciting, and different experiences to help them learn. Through a variety of multidisciplinary learning journeys, the school's outdoor education platform engages students in authentic learning at places like Jewel Changi Airport, Singapore River, Little India, nearby Pang Sua pond and more! There are also collaborations between departments such as the Mathematics, Humanities, and Mother Tongue Language departments which allows students to think out of the box and see connections between the subjects.

ZEST Arts Festival

Celebrating our Aesthetic Students
At the ZEST night arts festival, students come together to showcase their talents and passion in music, dance, and the arts. Many parents, alumni and students turn up every year to support the vibrant display of musical and aesthetic talents. In 2019, the festival evolved to include an exciting school-wide carnival to celebrate the school's 20th anniversary. It was a fresh experience as there were many fun carnival rides and games. The memories created at ZEST will be treasured by our students and alumni for years to come.
